A software engineer focused on building data infrastructures that support the development of digital legal research frameworks. My current interests are in web privacy and transparency, social media profiling, and human-computer interaction focusing on user behavior and consumer protection.

WORK

- Sept 2019** **Software Engineer @ Maastricht University**
Present
- Building and maintaining data infrastructures that support our research. Developing ETL pipelines to extract and normalise millions of legal data points. Building REST (Javascript) and GraphQL (AWS) APIs to serve data to our users and interfaces.
 - Developing React interfaces (Typescript) to make our data available and accessible to hundreds of users. Created internal no-code tools (React/Node) to enable our teams to visualise and interact with the data.
 - Conducting and publishing research at the intersection of computer science, law, and social sciences. Publications address topics such as deceptive design patterns on e-commerce websites, network analysis, and topic modelling.
- Jan 2019** **Java Student Assistant @ Saxion University of Applied Sciences**
Aug 2019
- Held office hours to help students understand, write and debug better Java code.
 - Graded and gave feedback on students work and assignments.
 - Advocated and encouraged students to have open discussions about their education and programming journey.
- Sept 2018** **Fullstack Web Developer @ Infomedia SRL**
Aug 2019
- Designed and developed scalable API features through MEAN stack for commercial web platforms.
 - Wrote and maintained internal tools, such as loggers, CLIs, and dashboards that resolved existing issues in development or production environments.
 - Implemented DevOps toolchains to automate and accelerate the development processes.

EDUCATION

- 2017 - 2021** **Saxion University of Applied Sciences**
Bachelor of Applied Science - BASc, **Applied Computer Science**
Bachelor Thesis: *URL Product Web Page Classifier*
- 2017 - 2018** **Google Developer Challenge Scholarship (Udacity)**
Mobile Web Specialist Certification

COMMUNITY INVOLVEMENT

VOLUNTEERING

Virtual Coffee

Assisting the members of the community into processing and publishing educational tech content on the Youtube channel.

Technolawgeeks Student Association

Consolidating the knowledge exchange and cooperation between Law and Computer Science students at Maastricht University.

The League of Romanian Students Abroad (LSRS)

Accommodating the needs of fellow students in the Netherlands. Organising cultural, entertainment, and professional events to expose Romanian students to diversity.

QCon London Conference 2016 & 2019

Supporting the inner processes of managing a world-wide size software engineering conference. Networking with professionals.

GITHUB ACTIONS

Code of Conduct Notifier GitHub Action - github.com

Remind the members of your community of their Code of Conduct.

Deploy to Deta Micro GitHub Action - github.com

Deploy your project to a Deta Micro.

Copy Sentiment Analysis GitHub Action - github.com

Run sentiment analysis over the text of your website.

OPEN SOURCE CONTRIBUTIONS

Forem - github.com/forem/forem

Community building and blogging platform

Fig.io - github.com/withfig/autocomplete

Developer tool that adds autocomplete to the terminal

Virtual Coffee- github.com/Virtual-Coffee/virtualcoffee.io

Static 11ty website for Virtual Coffee community

Protegé - github.com/drewclem/protege

Remote jobs posting platform for junior developers
